

ROHS2 COMPLIANCE DECLARATION

Directive 2011/65/EC of the European Parliament

Restriction of use of certain Hazardous Substances in Electrical and Electronic Equipment (EEE)

Parker Torchology, as a manufacturer, importer and reseller of products as defined in number 6 in annex V1, of the above directive, has certain obligations under the RoHS2 legislation. We have made detailed investigations into the products we manufacture and sell, and the implications of the RoHS2 directive upon them, and upon our customers.

Scope

All Mig and Tig and Plasma cutting and welding and other unspecified Welding torches, equipment and associated spares and components manufactured or supplied by Parker Torchology.

Declaration

The above products are certified compliant with the RoHS2 directive with all homogeneous component parts being controlled to ensure material contents as per the list below.

- a) Lead 0.1% by weight
- b) Mercury 0.1% by weight
- c) Cadmium 0.01% by weight
- d) Hexavalent Chromium 0.1% by weight
- e) Polybrominated biphenyls (PBB) 0.1% by weight
- f) Polybrominated diphenyl ethers (PBDE) 0.1% by weight

It should be noted that under specific exempted applications, Article 4(1) Annex 111 para 6, (a),(b) & (c), where lead is used as an alloying element the following limits are applied in accordance with the regulations.

- a) Copper and copper alloy parts containing up to 4% by weight of each homogeneous component.
- b) Steel and steel alloy parts containing up to 0.35% by weight of each homogeneous component.
- c) Aluminium and aluminium alloy parts containing up to 0.4% by weight of each homogeneous component.

October 2024
