SMART TORCH SOLUTIONS

**BZL**  
**MIG/MAG SERIES**

**Welding Tools for the Professional**

## A Smart Approach

Parker Torchology is shaped by people with vision, a passion for improvement and a belief in delivering the very best Welding and Cutting Torch Range in the World.

We expect a great deal from our products, so we ask a lot of ourselves and our engineers.

Our mantra: **Innovation, Technology, Performance.**

### Premium Features

At Parker Torchology we do things differently, we strive to solve your problems with the perfect product to suit your needs. We create smart product features encased in cutting-edge design to ensure you always have the best tools to hand.

### DNA

Design and Engineering excellence are at the core of everything we do.

Every torch we build is driven by our relentless pursuit of perfection.

## Production

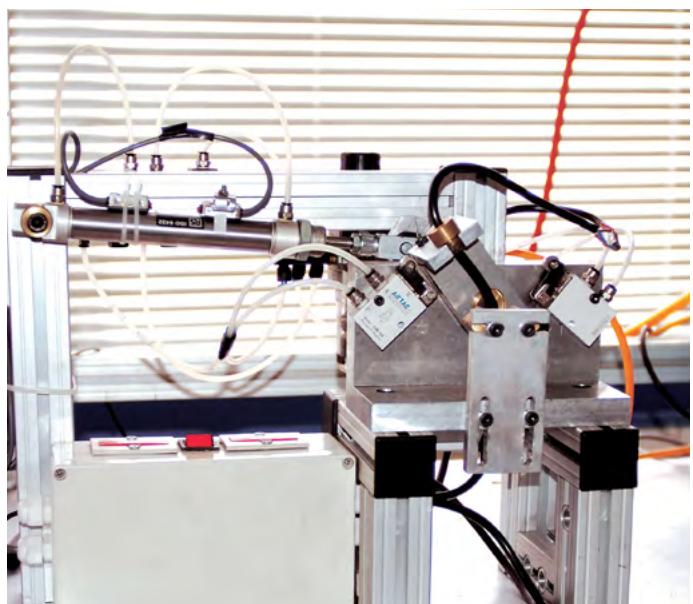

A fusion of precision production engineering, our bespoke processing techniques and a fanatical attention to detail ensures every welding torch we produce is worthy of the Parker Torchology name.

## Testing, Testing, Testing

It takes patience to develop a new product, it's a lot more than a great idea.

Product development is an iterative process, trying something over and over, changing one small variable at a time.

We build endless prototypes and test pieces that undergo months of rigorous testing. Only once a product has passed up to 88 different test procedures, with every single part tested separately do we consider our latest designs ready for market.

## Partners

Our customers and business partners play a vital role in our development. With the core aim to strive together, we work with end users, distributors and academic institutions alike.

As a result we share fundamental values in order to succeed in our respective market places, supporting economic growth and collaborative opportunities with others.

## A Bright Future

Technology doesn't stand still, which is why we are constantly innovating to bring you the best products on the market.

Our strong vision and focused innovation strategy, not to mention our passion to revolutionize the industry, ensure that Parker Torchology is a byword for excellence.

**We Talk Torches**

# Suregrip BZL Mig/Mag Torch Range

## Air-Cooled Features Focus

Air-Cooled

The Suregrip BZL series combines ergonomics and premium feature sets for todays welding professionals.

## Welding Tools for the Professional

100% Binzel® "Grip Series" Compatibility Guaranteed

### Quality Wear Parts

All wear parts are manufactured to the same specification as the original manufacturer ensuring reliability, longevity and superior performance

- Contact tips are manufactured using high quality copper alloys
- Standard and high-performance options are available for tip adaptors, diffusers and swan necks

### Ergonomics – For Comfort and Handleability

Every detail has been considered to ensure the welder has the very best handling in all positions

- Screwless designed handle with maximized soft grips for improved balance and positionability
- Torch handles disassemble in 5 seconds for rapid fault analysis
- The addition of a knuckle joint enables small movements of the handle and neck independently of the cable assembly
- Cable supports are designed to combine flexibility with smooth and consistent wire feed

ONE + PLUS SYSTEM

### "Plug and Play" Configurability

One + Plus system configured to your exact needs

- "Plug and play" switch interchangeability in seconds! - try it!
- Switches are available with standard and extended lever options
- Micro-switch options for repetitive start/stop applications, digital power source control or harsh and dusty environments

## Features Focus

### World Class Welding Performance

#### Swan Necks

Engineered For Extended Service Life

- Chrome plated nozzle seat provides extra durability
- Higher amperage Air-Cooled swan necks utilize fluted copper profiles for superior performance

#### Superior Flexibility and Durability

##### Duraflex high performance power cables

- Cable sets offer the ultimate in heat and burn resistance. Fused by an electron beam process that maximizes flexibility and durability
- All Suregrip series Air-Cooled torches are manufactured from Duraflex copper cable systems

#### Ease of Maintenance

Functionality and ease of repair

- Screwless design solutions. Euro housing sets ensure minimum downtime and productivity – No tools required!
- The Euro body has been redesigned to improve gas seal integrity in Argon applications
- Our spring pins – often copied,,, can't be beaten

### The Smart Way To Buy Welding and Cutting Tools

# Suregrip BZL Mig/Mag Torch Range

## Liquid-Cooled Features Focus

## Liquid-Cooled

Parker Torchology Liquid-Cooled torches offer maximum reliability and durability. The culmination of 35 years of constant improvement, feature sets and raw material selection are fine tuned for optimum performance.

### Welding Tools for the Professional

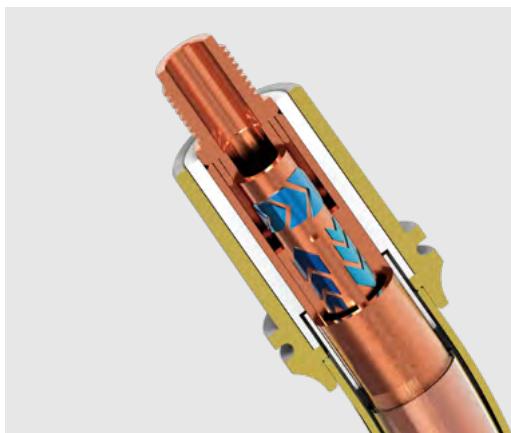

100% Binzel® "Grip Series" Compatibility Guaranteed

#### Premium Performance Wear Parts

All front-end wear parts are manufactured to improve current transfer and increase component longevity and ensure superior performance

- Contact tips are manufactured from premium grade copper alloys; we don't sacrifice performance by using low-end or recycled raw materials
- Optional high conductivity tip adaptors and heavy duty diffusers are available

#### Swan Necks

##### Engineered For Extended Service Life

- Chrome plated nozzle seat provides extra durability
- Tip adaptor seats produced from a special grade copper alloy for increased service life.

#### Ergonomics - For Comfort and Handleability

Every detail has been considered to ensure the welder has the very best handling experience

- Screwless designed handle with maximized soft grips for improved balance and positionability
- Torch handles disassemble in 5 seconds for rapid fault analysis
- Handles have been re-engineered to prevent trapped wires
- The addition of a knuckle joint enables small movements of the handle and neck independently of the cable assembly
- Cable supports are designed to combine flexibility with smooth and consistent wire feed

## Features Focus

### World Class Welding Performance

#### "Plug and Play" Configurability

One + Plus system configured to your exact needs

- "Plug and play" switch interchangeability in seconds! - try it!
- Switches are available with standard and extended lever options
- Micro-switch options for repetitive start/stop applications, digital power source control or harsh and dusty environments

### Superior Flexibility and Durability

Hydroflex cable systems

- Cable set materials enhanced to increase service life
- High grade outer liner material prolongs flex life, over 1 million flexes in tests
- The copper conductor is coated to prevent premature corrosion from poor quality water and coolant additives

#### Ease of Maintenance

Functionality and ease of repair

- Screwless design solutions. Euro housing sets ensure minimum downtime and productivity – No tools required!
- The Euro body has been redesigned to improve gas seal integrity in Argon applications
- Our spring pins – often copied, can't be beaten

# Duragrip BZL Mig/Mag Torch Range

## Air-Cooled Features Focus

Same performance levels as the standard Suregrip BZL series but with fewer features and lower duty cycles.

100% Binzel® Compatibility Guaranteed

### Quality Wear Parts

All wear parts are manufactured to the same specification as the original manufacturer ensuring reliability, longevity and superior performance

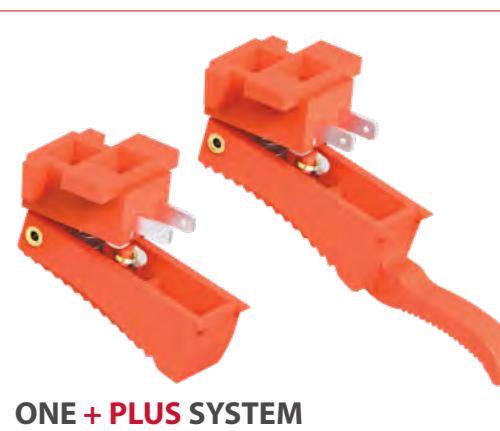

- Contact tips are manufactured using quality copper alloys
- Standard performance tip adaptors, diffusers and swan necks

### Flexibility and Durability

#### Duraflex Ultralite

- Cable sets offer the ultimate in heat and burn resistance.
- The addition of a knuckle joint enables small movements of the handle and neck independently of the cable assembly
- Cable supports are designed to combine flexibility and with smooth and consistent wire feeding

ONE + PLUS SYSTEM

### "Plug and Play" Configurability

One + Plus system configured to your exact needs

- "Plug and play" switch interchangeability in seconds! - try it!
- Switches are available with standard and extended lever options

# Suregrip A-LW Mig/Mag Torch Range

## Air-Cooled Features Focus

Air-Cooled

A new series of Suregrip BZL products with screw on nozzles and innovative lightweight cable sets.

## Welding Tools for the Professional

100% Binzel® ALW Compatibility Guaranteed

### Quality Wear Parts

All wear parts are manufactured to the same specification as the original manufacturer ensuring reliability, longevity and superior performance

- Contact tips are manufactured using high quality copper alloys
- Self insulated, screw on nozzles

### Ergonomics – For Comfort and Handleability

Every detail has been considered to ensure the welder has the very best handling in all positions

- Screwless designed handle with maximized soft grips for improved balance and positionability
- Torch handles disassemble in 5 seconds for rapid fault analysis
- The addition of a knuckle joint enables small movements of the handle and neck independently of the cable assembly
- Cable supports are designed to combine flexibility with smooth and consistent wire feed

ONE + PLUS SYSTEM

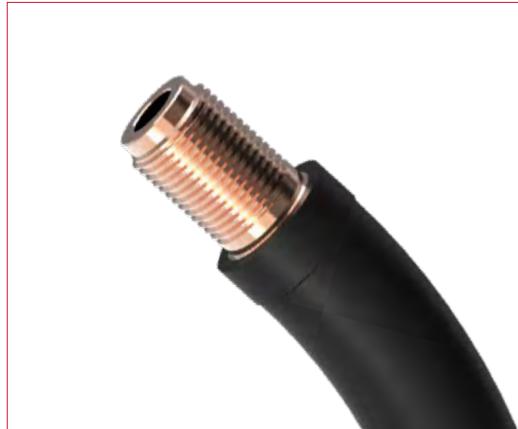

### "Plug and Play" Configurability

One + Plus system configured to your exact needs

- "Plug and play" switch interchangeability in seconds! - try it!
- Switches are available with standard and extended lever options
- Micro-switch options for repetitive start/stop applications, digital power source control or harsh and dusty environments

## Features Focus

### World Class Welding Performance

#### Swan Necks

Engineered For Extended Service Life

- Superior neck insulators are made from aluminum for enhanced service life
- Polymer armoured neck for increased durability and insulation integrity

#### Superior Flexibility, Durability - and Lightweight

##### Duraflex Ultralite

- Duraflex Ultralite cable sets offer the ultimate in heat and abrasion resistance, with the added benefit of being 30%-40% lighter

30%-40% Lighter

#### Ease of Maintenance

Functionality and ease of repair

- Screwless design solutions. Euro housing sets ensure minimum downtime and productivity – No tools required!
- The Euro body has been redesigned to improve gas seal integrity in Argon applications.
- Our spring pins – often copied,,, can't be beaten

### The Smart Way To Buy Welding and Cutting Tools
